One of the worse railroad acccidents of the season occured at Jackson, Friday morning, and resulted in the death of 12 persons and the seriously injuring of 22, besides numerous people who received slight injuries. An excursion train, in two sections, from New York state, filled with people going to the World's Fair, were on their way to Chicago, on the M. C. track. The JOCK Street, McRae Block.

The restaurant people along Sixty-third and Sixty-fourth streets did all they could to accommodate the houseless folks, and many of the fakirs along Stony Island turned their booths into lodging-places, where it cost 25 cents to sit down during the night. The Democrats do not approve of hired agents of the government controlling local elections.

The business men throughout the greater part of the country have demanded the repeal of the silver purchase act, and yet it seems as if a minority of the U. S. repealed and the financial stringency relieved, while at the same time, a strong blow might be struck for the retention of the McKinley legislation under the impression created that it is necessary to the prosperity of the country.

But the action of the minority in the Senate and its stubborn refusal to grant the demand for repeal, has been the means of compelling the winning three races in succession. The cup was won from the British in 1851, by the yacht America, and the present contest makes eight times the British yachtmen have tried in vain to defeat American yachts, and recover the prize. The last race was decided at New York City, and the Vigilant won by 40 seconds, the distance sailed being 30 miles. The Valkyrie is the best yacht the British have yet sent to contest for the cup.

The Senate and its stubborn refusal to grant the demand for repeal, has been the means of compelling the great manufacturing interests of the country to show their hands and confess that the repeal is necessary for the financial preservation of the country, thereby confessing that the tariff scare was only created for selfish partisan and trade interests, and that it was without foundation in fact. The unprincipaled suggestion of Senator Don Cameron that the purchase of silver be continued in order that the Republicans in Congress might be sufficiently strengthened to prevent subjects of some of the articles.
